- Custom packages available for faster services.

Not all service packages available in all areas. Speeds are determined by location, type of equipment, distance from service location, and signal quality. Free site survey to make sure you are capable of receiving a Leapstream package. First month's payment and installation fee are due upon installation. Each service package requires a two-year contract. Installation includes wiring to one wireless router on premises, the rest of your devices can utilize the included wireless router. All hardware and software provided is the property of MCS Office Technologies.

Installation Includes:

- Outdoor Wireless Antenna
- Indoor Wireless Router
- 50' Outdoor Ethernet Cable
- Unlimited Data - No Usage Caps!
